Farewell Programme for the out-going Third Year/Final Semester Students

The other Annual programme conducted by the Association is in organizing the Annual Farewell Programme to the out-going third year students at the end of the

year. This programme is meant not only to bid the students farewell but most importantly this event enables SACSAA to get an opportunity to interact with the future alumni of the College and members of SACSAA. This programme helps the Association to gain more visibility among the students in order to attract them to it also reaching out to them to share ideas through which the Association can then reach out to the society and bring out changes that will impact the society and make a difference. Such farewell programmes are successfully organised in 2013, 2014 and 2015, 2016, 2017 and 2018.

B.A. Pass Course (Evening Course)-A Flag Ship Programme of the SACSAA:

The members of SACSAA have long felt the need to concretely contribute to “making a difference” in the society. After many deliberations and discussions among the members and the management of the College, the Association and the College Management decided to start a B.A. Pass Course as an Evening Section for special category students. The programme is meant for economically challenged students and those who have not scored enough marks. The aim of this programme is to give these students an opportunity to make a career for themselves. Besides, the usual B.A. Course, the students are also encouraged to join a Technical Course in the day time at Don Bosco Technical School, Shillong to help them develop socially relevant skills.

A moderate course fee of Rs 5000/- per year is charged, which would be reimbursed in case the student passes the final exam of the University and has a required minimum attendance percentage. Three batches of students are presently undertaking the course. The first batch (2014 session) successfully completed their graduation for which one of them attained 2nd Position in the Annual University BA Pass Course. The second batch (2015 session) also successfully completed their graduation. The third batch (2016 session) with about 22 students is presently in sixth semester. The fourth batch (2017 session) with about 49 students is presently in fourth semester.

SACSAA would like to acknowledge the one hundred percent involvement of the Principal Dr (Br) Albert L Dkhar to ensure that the programme takes off and being sustainable. He has been actively involved in monitoring the attendance and classes of the students (for which some classes are taken by him with regards to History subject). Rev Fr Saji Stephen and Rev. (Dr) Fr Joby Joseph have been dynamically involved in the logistics of running this course. They have been actively involved in rigorous selection process of the students and in managing the finance related to the course. The Faculty of B.A. (Evening Course) with their selfless dedication has helped to bring a change to the lives of these students. The office staff has also contributed to make this programme a success.

B.Com Evening Course:

Continuing with its flagship programme, the Association also has a B.Com evening course (2016 session) with strength of 14 students in the 4th Semester and a strength of 8 students in the 2nd Semester (2017 session). The programme is meant for economically challenged students and those who have not scored enough marks.

Strength of the Association:

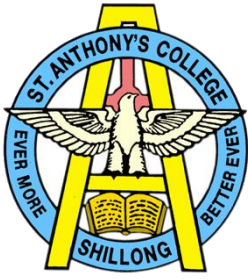

There are about 3876 members registered with the Association. Since 2013, the Association together with the College decided to register the passing out students to SACSAA during their final year at the time of collection of their admit cards for the final exam. Students pay an amount of Rs 250/- as a one-time membership fee. This is the only member fee collected from an alumnus. This has greatly increased the membership of the association. With regards to membership, the Executive Committee also decided to create a database of the alumni and hence a person was employed to input data to enable the creation of such a database. The process is still going on. I would also like to inform the members that the membership fee has been the only source of income for the association which primarily goes to the funding of the flagship programme of the Association mentioned above.

Meeting Minds Guiding Lives:

This is one of the Annual Program of the Association. This is a career counselling programme conducted by the Association for the benefit of the third year students of the College. In this programme, experts from different fields are called and the students are given the opportunity to listen and interact with the experts. The students are given the exposure to job openings, prospects in higher education, future career planning and others. Our programme each was organised in the year 2013 and 2014. We however could not organise this program in 2015 to 2018 due to many prior engagements of the students and the organizing team were not able to conduct the programme.

Miscellaneous Activities:

The Office bearers of SACSAA from time to time have been involved in the various activities of the College. The Association also have their Executive meetings often to discuss and deliberate on the various activities and events to be organised by the Association.
