

Department of Statistics

Short-Term goals:

The Department of Statistics in collaboration with the National Institute of Technology (Shillong) has been conducting many workshops together, and many more workshops on R Statistical Software, Research and Sampling tools, are proposed to be conducted in future in collaboration with other premier Institutions. To enhance the knowledge and ideas of the students in the field of application of statistics in the agricultural and industrial sectors, the department has a keen interest to conduct an educational field trip for the 6th Semester Statistics Students in collaboration with the Indian Council of Agricultural Research (Umiam), and some Industries and Factories located in Meghalaya.

Long-Term goals:

Research collaboration with researchers from other renowned Institutions in India and Abroad.

Explore and initiate collaborative research projects with Meghalaya (government/private sector) institutions or organisations.
