Mentoring policy of Mass Media Department, St Anthony's College

The well being of the Student and success is one of the primary goals of any institution of higher education. Mentoring is one of the methods to ensure that there is a consensual and meaningful relationship between the Mentor and the Mentees that leads to their overall growth and development. Hence Mentoring has become an increasingly integral part of the curricular and co curricular activities of HEI s and students are in need of counselling and guidance at every stage of their student life.

The Process of Mentoring involves the allocation of a set of mentees to a designated faculty Of the Mass Media department with the flexibility to opt for mentors of their choice in case of need. The mentoring process helps to keep track of the student performance academically and in other co curricular activities as well.

The role of the mentor is to:

1. listen actively and patiently and create an active and conducive environment for open communication
2. possess a non- judgemental and objective approach
3. build trust which is one the biggest challenges of mentoring and a good mentor should establish a relationship grounded in trust and absolute confidentiality
4. assist in determining personal and career goals of the mentee
5. provide a clear assessment of the mentee's strengths and weaknesses and help in goal setting
6. help students to identify various scholarship schemes available for students.
7. to guide the mentees to identify and avail existing opportunities to better their performance and to meet their goals and to also be able to identify limitations in providing counselling and escalate to a professional counsellor or psychiatrist as the need arises

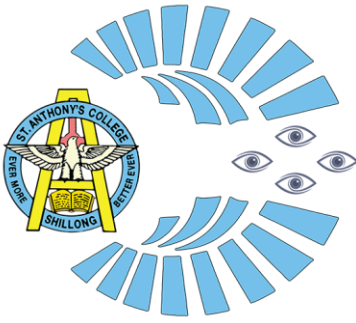

8. share knowledge, skills and experience to validate the mentee's doubts and queries
9. empathise with the mentee's problems and circumstances
10. encourage, motivate and inspire the mentee in order to ensure that they achieve their goals
11. Ensure regularity and sincerity of the mentee in attending classes and exams. To do this the mentor need to meet the students who are given the warning notice for poor at the end of the month when the attendance record list is put up in the notice board.

The role of the Mentee is to:

1. Reach out to the mentor in times of academic need
2. Communicate effectively and honestly about any problems and issues
3. Engage and participate actively in the mentoring process
4. Acknowledge and accept the support provided by the mentor in identifying goals
5. Work sincerely towards the goals set consensually
6. Maintain and improve inter-personal skills
7. The mentee must not disturb the mentor beyond class timings except in extreme cases.

DO'S

1. Fix time of Meeting and meet periodically
2. Know Academic requirements – Help them
3. Inform their Parents / Guardians – in extreme cases where the students is not making academic progress or showing signs of indiscipline despite warnings and corrections. This meeting can be set up in the presence of the Director, HOD or Principal if the mentor think necessary.
4. Know College Objective & Goals – convey to Students & Seek their role.

5. Know College Activities – seek their Involvement With Student, help establish Healthy, Co-operative, Academic ambience in the Department.
6. Keep a diary to record the meetings and decisions taken which will be duly signed by both mentor and mentee.

DON'TS

1. Not to call Students to your Home.
2. Not to involve in Student's Examinations.
3. Not to dictate – rather facilitate
4. Not to use them for Personal Work
5. Not to thrust anything upon Students but give only what they want only if possible
6. Not to do any activities – without prior permission of the Principal/HOD/Director

The Mentor-Mentee relationship is not merely a student - teacher relationship but can be very enriching for both the mentor and mentee in several ways. Mentoring is multidimensional and includes life skills development, academic and co-curricular development, career exploration and securing financial assistance. The relationship evolves into a supportive setting to develop a focused plan for overall development that is tied to skills, knowledge, and actions.

The process is also an opportunity to use and develop leadership skills and results, to enhance and strengthen interpersonal and coaching skills for the Mentor as well. **This policy is meant to only guide the mentor with the mentoring process. It is, however up to the mentee to be responsible and accountable to their own decisions and choices that they make for their lives.**

Mass Media Department, St Anthony's College)
