

## **Write up on the Anthonian Cosmic Gazers**

The “Anthonian Cosmic Gazers” is an Astronomy Club under the aegis of the Department of Physics, St. Anthony’s College Shillong. Established on the 28<sup>th</sup> of September, 2013, the primary objective of the club is to promote Astronomy as a hobby among its members. Through its different activities the Club seeks to stimulate interest in the field of observational Astronomy and hence increase knowledge and awareness about Astronomy both among its members and the general public.

Any student of the college having Physics as a subject can be a member of the Club.

The Club has its constitution and all the activities of the club is in accordance with the laws laid down in its constitution.
