VISION AND MISSION

VISION

Providing holistic and quality education within the reach of all

MISSION

To mould intellectually competent, morally upright, socially committed and spiritually inspired persons capable of building a more human social order within the context of the nation's plurality of religions and diversity of cultures

Guided by the religious and educational philosophy of St. John Bosco, and born of the vision of a Don Bosco Father, Fr. Joseph Bacchiarello, St. Anthony's College was founded in 1934 with the avowed mission of 'bringing college education within the reach of common man and woman'. Ever since, the College has been nurtured by the Salesians of Don Bosco to be in the vanguard of higher education in North-East India.

We emphasize life-oriented and value-based teaching and nurture a culture of solidarity. The educators and the educated join hands to mould intellectually competent, morally upright, socially committed and spiritually inspired persons capable of building a more human social order within the context of the nation's plurality of religions and diversity of cultures..

We aim to equip our students for life, making them not only job-seekers, but also job-creators. Hence, in keeping with the developments in educational strategies worldwide, we have pioneered courses in application-oriented subjects to answer to the needs of the community that we serve and to give our graduates a competitive edge in the employment market.

Teaching, for us here at the College, is a lifetime commitment, a passion, a vocation and a profession, rather than a job. Our Teachers are continually engaged in equipping themselves so as to stay abreast of the latest developments in their own fields.

Striving for excellence is our way of life. Our motto tells it all "Ever More Better Ever".

Message from the Principal

The Documentation Cell has never failed to record and compile reports of different programmes and activities. As year progresses the college has seen an increase in varieties of activities ranging from Academics to Extra-curricular.

The different clubs and cells formed with the view of providing a holistic growth of the students as well as the teaching and non-teaching staff has remained true to its promises. Every activity has been organised in the college keeping in mind the best interest of the different stakeholders.

The outreach programmes have been beneficial to the far-flung places, where accesses to and availability of current education are beyond reach.

I therefore express my gratitude to all those who have contributed to the cause of providing a holistic education to the students of the college as well as the masses beyond the college campus.

Thank you

(Br. (Dr). Albert L. Dkhar)

Year in Review

The various Departments of the college held several seminars, conference, workshops and Hands-On trainings with the motive of providing an overall academic experience for the students of the college. Guest lectures not only purely academic, but also on subjects, as social awareness, social responsibilities and civic consciousness have been organised this year.

The college organised orientation programmes for both its staff and students before the starting of the academic year. The orientation programmes oriented the staff members with useful knowledge on the teaching learning process and administrative works. The students benefited by learning about future prospects to gain enriching experiences as students of the college. The year saw participation of the students in various activities ranging from academics to extra-curricular activities. Many clubs initiated outreach programmes which gave the students exposure to the outside world.

Assistant Professor, M.Sc.

The Students Development Service looks after the overall development of the students. Disclaimer

The Documentation Cell has taken all pains in ensuring that the reports submitted to it have been properly studied and carefully assimilated in the process of compiling the Annual Report. The Cell has incorporated with all diligence, the facts and figures, as received by it from the Departments to ensure that there are no errors or discrepancies in any representation of such facts and figures.

The Cell, after much study and analysis of the reports and the information received by it, has decided to include only those events which are directly beneficial to the students community and to the teaching learning process for the sake of coherence and brevity and to avoid an unwieldy and cumbersome representation of the events and activities of the College. Other events which have become a common feature of the College's yearly programme or such academic exercises which the departments have been conducting year after year may not have been included.

There are possibilities of repetition of events either attended by faculty or organised by a Department. Such repetition has been maintained to reflect variety in participation and in interest of the faculty which broadens to include other related subjects as well. There could also be instances where the personal achievements of a faculty may not have been reflected in full as submitted in report; the Cell expresses its apologies in advance for such a lapse. There may also be instances of typing mistakes in words or figures. The Cell expresses its apologies and urges it to be considered as human error.
